Boston Cardiac Foundation

"Helping One Heart at a Time"

In February of this year the Boston Cardiac Foundation team completed a mission to India where they implanted permanent pacemakers for patients who otherwise could not afford the lifesaving care. In addition, teaching and training sessions were held with staff from JRSH Specialty Hospital in Meerut, India to further support patients in the region. The pacemakers and supplies were generously donated by Medtronic, and the BCF team was grateful to be joined by Steve Shiner and Savanna Bresenham from Medtronic on the mission. Members of the BCF team have been traveling around the globe, including India, Ethiopia and Paraguay on charitable missions for over 30 years. In March of 2023, BCF was pleased to support MGH Physicians' mission to the Azores.

The Boston Cardiac Foundation is a non-profit organization that brings medical technologies and services to those in need around the world. The BCF team is made up of physicians, nurses and technologists who perform cardiac procedures such as pacemaker implants with follow-up, coronary stenting and angioplasty free of charge for patients who cannot afford the lifesaving treatments.

"The Boston Cardiac Foundation strives to fulfill our motto of 'helping one heart at a time'" shared Dr. Salil Midha. "It has been an honor to help those in need all over the world for 32 years. I am thankful that our team is able to make a difference for so many patients."
